CAREER OBJECTIVE

Detail-oriented and analytical MCA student with strong foundations in SQL, DBMS, and Data Analytics, seeking an Analyst Trainee role in IT & Integrated Smart Operations. Skilled in database queries, CRUD operations, data analysis, and problem-solving with a strong drive for innovation and continuous learning.

Education

- Currently pursuing **Master Of Computer Application at Invertis University , Bareilly** with a score of **84.31%** .
- Complete **Bachelor Of Computer Application From Makhnallal Chaturvedi National University, Bhopal, Madhya Pradesh (2022 – 2025)** with a score of **79.3%**.
- Completed **Class 12th (CBSE)** in 2022 with a score of **74.2%**.
- Completed **Class 10th (CBSE)** in 2020 with a score of **65.6%**.

Skills

- **Programming:** Python , C , HTML/CSS , JavaScript(Basics)
- **Data Analytics & tools:** SQL(CRUD Operations), Excel, Power BI, Pandas, Numpy, Matplotlib , Seaborn.
- **Tools & IDEs:** Git & GitHub, Jupyter Notebook, Visual Studio Code.
- **Core Concepts:** OOPs, DSA , DBMS , Basic Software testing concept ,low level design understanding, Operating System
- **AI/ML Frameworks:** Pandas, NumPy , Scikit-learn,

Projects

Todo Management Web App

Mar 2025 – Apr 2025

Technologies Used in Project: HTML | CSS | JavaScript

- Implemented CRUD operations (Add, Edit, Delete tasks).
- Implemented task filtering (All / Pending / Completed) and Dark-Light mode toggle.
- Used browser LocalStorage to persist user tasks across sessions.

Live demo : <https://ayushsingh01894.github.io/ToDo-app/>

GitHub : <https://github.com/ayushsingh1894/ToDo-app>

E-Commerce Product Performance Analysis

Mar 2025– Sep 2025

Technologies Used in Project : Excel | SQL | Python (Pandas, NumPy, Matplotlib, Seaborn) | Power BI

- Cleaned and structured large datasets using SQL queries.
- Performed data retrieval using joins and aggregation functions.
- Conducted EDA using Python (Pandas, NumPy).
- Built interactive dashboards in Power BI.
- Identified underperforming products and profitability trends

QR Code Based Attendance Management System

Dec 2025 – Jan 2026

Technologies Used : Python | Flask | MongoDB | HTML | CSS

- Developed a real-time QR-based attendance system.
- Implemented CRUD operations for student and session management.
- Designed database schema and managed session-wise data storage.
- Prevented duplicate attendance using logic validation.
- Exported attendance data in CSV format.

House Price Prediction Web Application

Feb 2026

Technologies: Python, Scikit-learn, HTML, CSS

- Developed a Machine Learning–based web application to predict house prices using Linear Regression.
- Performed data preprocessing, feature selection, and model training using Scikit-learn.
- Designed a responsive and user-friendly web interface for input and result visualization , Implemented dynamic prediction display with chart visualization.

Soft Skills

- Strong analytical and critical thinking skills
- Problem-solving ability
- Good written & verbal communication
- Teamwork & collaboration
- Effective time management
